DETAILED ACTION

Allowable Subject Matter

1. Claims 1-5, 7, 10-17, 19, 21-23, 25-38 are allowed.
2. The following is an examiner's statement of reasons for allowance: the prior art, individually or in combination, fails to disclose, teach or suggest in regard to claims 1 and 23, an air traffic information display system comprising a data manager packed at the middle tier of a three-tier architecture, the data manager for arbitrating flight, system and airport data transactions in a performance related manner, the data manager including a first interface and plurality of second interfaces. The closest prior art, Glass et al (US 6,161,097) discloses a traffic management system. This system provides for the interconnection of multiple data sources and connecting these data sources to a single point in order to facilitate information sharing, however, Glass et al does not disclose, teach or suggest the use of a three-tier architecture, with the data manager being at the middle tier.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
